

SOUTH BANK PLACE

London SE1

THE SITE

The unique design of this building will ensure that it becomes a landmark in its own right; the visually striking exterior complemented by incomparable views from within. The apartments are arranged across the 10 and 20 storey elements of the building providing 1, 2 and 3 bedroom residences culminating in spectacular penthouses at the very top levels. The rare character and setting of these apartments is enhanced by sophisticated interiors, designed to leave a lasting impression. The spaces have been carefully considered to make the most of the open aspect, the natural light and the superb river views. The rich mix of materials and textures complement and harmonise with the architectural concept and link to the mid-century design of the surrounding area.

The hotel-style reception design is of discernment and refinement. The double height space and dramatic feature wall have immediate and lasting impact. Beautifully designed, perfectly detailed, the lobby's lavish style and elegance provides a fitting welcome to these prestigious apartments.

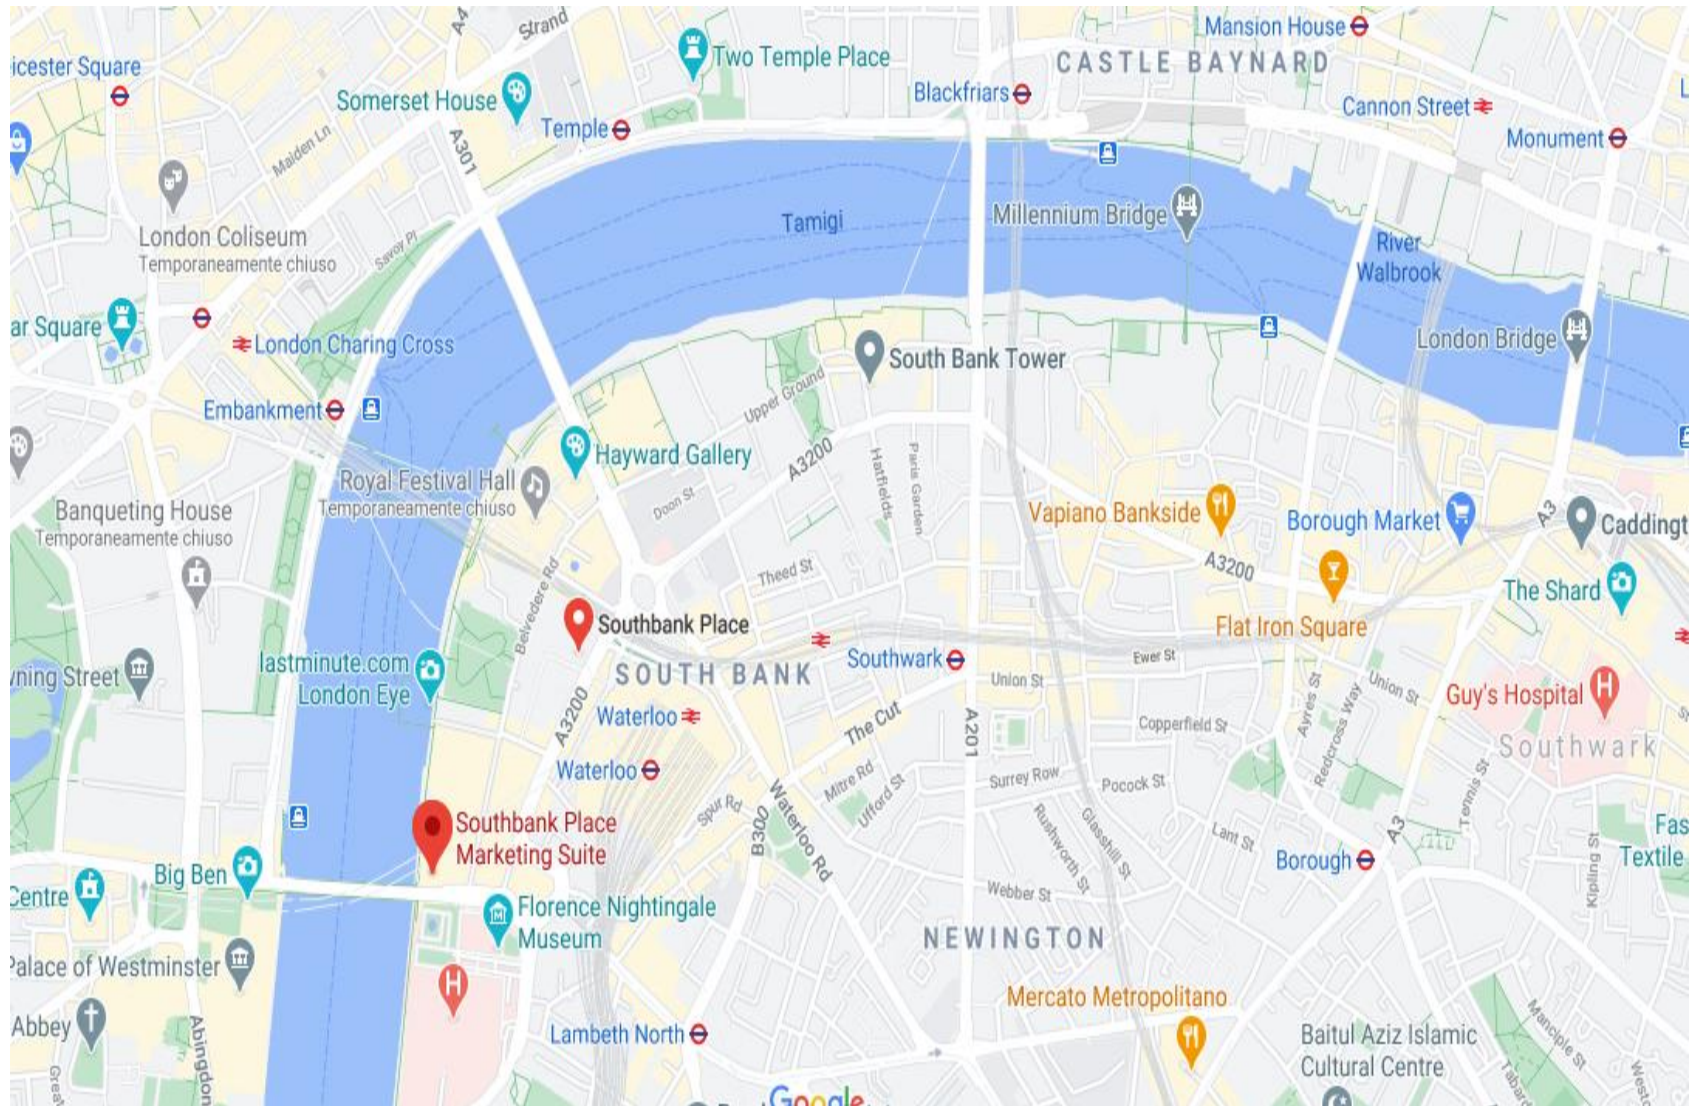

In addition to the health club available to all Southbank Place residents, Belvedere Gardens has its own, exclusive health center and spa. The gym, relaxation lounge, sauna, steam room and private changing rooms are custom-designed by Goddard Littlefair.

Living Spaces An overwhelming sense of luxury flows through the living spaces at Belvedere Gardens. Enduring contemporary design accentuates the classical scale and proportions of the rooms, while floor to ceiling windows fill the space with light and focus the eye on that spectacular skyline and river views.
